WHO WE ARE

The analytical firepower of a full data team — at a fraction of the cost.

Northbridge Analytics is a specialist data analytics consultancy serving UK schools and multi-academy trusts. We exist to close the gap between the data school leaders hold and the insight they need — for governors, for inspectors, and for strategic decision-making.

Every partnership is delivered remotely by a named senior analyst. There are no junior staff, no outsourced work, and no templated reports. When you work with Northbridge, you work with the same experienced professional throughout.

Senior-Led. Always.

No juniors, no subcontractors. Every piece of work is delivered by an experienced data professional.

Remote-First. Fixed Fee.

All partnerships are delivered remotely. One fixed annual fee — no day-rate creep, no surprise invoices.

Deliberately Small Client Base.

We work with a limited number of clients each year to maintain the standard our clients expect.

Three ways to work with us.

Every service is delivered at senior level, remotely, at a fixed fee. No junior analysts. No templated reports. No surprises.

Per-school rate reduces modestly at scale — reflecting shared infrastructure and a single trust relationship, not a bulk discount. 12+ school trusts are quoted individually.

Why the pricing is what it is

Ten schools each engaging a standalone analyst at £12,000 per year would cost £120,000. A Northbridge MAT partnership for ten schools costs £99,500 — with trust-level oversight, CEO reporting, and a single point of accountability included.

A part-time in-house analyst costs £28,000–£35,000 in salary alone, before employer National Insurance, pension contributions, and management overhead. That covers one school.

Our pricing reflects genuine expertise. It is not negotiable. It does not need to be.

Saving vs individual school contracts

Three things that never change.

◆ **Fixed fees. No surprises.**

Every partnership is a fixed annual fee. No day-rate creep, no scope additions billed separately, no surprise invoices. You know exactly what you are paying before you sign. And when the inspection call comes, you will know exactly where you stand.

◆ **Senior-led. Always.**

There are no junior analysts or subcontractors at Northbridge. Every piece of work is delivered by the same experienced professional you spoke to on your scoping call. That consistency is part of what you are paying for.

◆ **Deliberately small client base.**

We work with a limited number of clients each year. That is not a sales tactic — it is how we maintain the standard of work our clients expect. If we are not the right fit, we will tell you.
